

THE MAGAZINE OF UNITED

# HEMISPHERES

# Verizon Airfone JetConnect™

## JetConnect

**\$5.99** From takeoff to landing. Available on select flights.

**Instant Messaging** Requires an existing, active account

**Text Messaging**

**News** National, International & Business News—Updated regularly

**Sports** Scoreboards & News—Updated regularly

**Stock Listings** The Top 1000 Symbols—Updated regularly

**City Guides** Over 100 major destinations

**Weather** Updated regularly

**Games**

† **JetConnect Requirements:** PC or Mac laptop with a built-in modem, browser software (Internet Explorer 5.0 or later, Netscape 6.02 or later, or java-enabled browser), and a standard phone cord. If your system has an installed firewall application, you may consider disabling or dial "0" from the plane for assistance. Instant Messaging and Text Messaging features require pre-existing, qualified accounts. JetConnect streams at a maximum modem speed of 56K. Service only available in the continental U.S.

## JetConnect with Email

**\$15.98\*** From takeoff to landing. Available on select flights.

\*Plus 10¢ per Kb for each email over 2 Kb.

**Inbound and Outbound Email** (Including attachments)

**Plus all the messaging services and features of JetConnect**

† **JetConnect Email Requirements:** JetConnect Email currently supports only POP3, Microsoft Exchange (accessible using Outlook Web Access), and Lotus Notes via POP accounts. Please know your email address, user ID, password and mail server address for your compatible accounts. Service only available in the continental U.S.

Additional email accounts will be supported in the future

## It's easy to JetConnect.

### Step 1: Plug In

Remove handset and plug in standard phone cord into Airfone® handset.

Press "1" for JetConnect. Step 1: Plug In

Step 2: Dial Up

Step 3: Click On

### Step 2: Dial Up

**For PC User:** Click on "Start" and choose "Settings." Next, click on "Control Panel" and—depending on your computer—choose "Dial Up" or "Network Connection." Create a new connection by clicking "Make a New Connection," then following the steps. Enter "123" for the area code, "123" for the number, and "123" for the password.

**For Mac User:** Click on the Apple icon and—depending on your computer—choose "Control Panels" or "System Preferences." Create a new connection by clicking on "Apple," then "File," then "Configuration." Click on "Duplicate" and rename it "JetConnect" for Mac OS9 or "New Location" for Mac OS 10. Then enter all the correct information for a dial-up connection. Enter "123" for the area code, "123" for the number, "JetConnect" for the user name, and "123" for the password.

### Step 3: Click On Your Browser

Open Internet Explorer or Netscape Navigator. Follow the directions on the screen. Please note that surfing the Internet is not currently available through JetConnect.

Applicable taxes, surcharges and fees are additional.
